Siegfried Asset Management Named Winner at the Hedge Fund Performance Awards APAC 2026

Dear Partners and Investors,

We are proud to share that Siegfried Asset Management has been named winner of the “Asia Non-Equity (Over \$500m)” category at the Hedge Fund Performance Awards | APAC 2026, presented by With Intelligence and S&P Global.

The award recognizes the VTeam Siegfried Supply Chain Finance Fund for its performance among Asia-based non-equity strategies managing over \$500 million in assets — one of the most closely watched categories in the region's hedge fund industry.

Why This Recognition Matters

With Intelligence, in partnership with S&P Global, is one of the most respected authorities in institutional asset management research and industry recognition worldwide. The Hedge Fund Performance Awards | APAC evaluate managers purely on performance within their peer category, making this a recognition of results, not marketing.

This award reflects the discipline of our supply chain finance strategy and, above all, the trust our investors and partners have placed in us since day one. It also reflects the strength of a model built on transparency and defensive, uncorrelated returns — principles we have never compromised on.

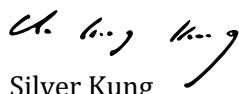

About the Award

Full details and the complete list of 2026 winners are available on the official With Intelligence awards page:

awards.withintelligence.com/hedgelfundperformanceawardsapac/en/page/2026-winners

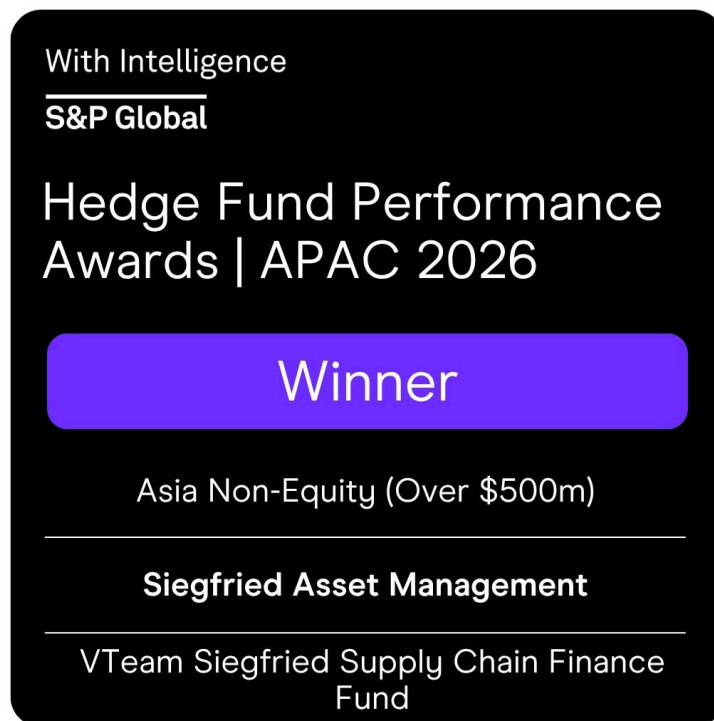

We extend our sincere thanks to With Intelligence and S&P Global, and above all to you — our investors and partners — whose confidence and partnership made this recognition possible.

Sincerely,

Silver Kung

Siegfried Capital
